

DONT SHOOT THE BASTARDS

101 More Ways to Salvage Freedom by Claire Wolfe

From flat-out prohibitions of peaceful activities to flagrant invasions of privacy to ominous erosions of Constitutional freedoms, the signs are everywhere: real freedom in the United States is disappearing at an alarming rate. In this follow-up to her wildly popular "101 Things to Do 'Til the Revolution," Claire Wolfe presents another batch of provocative ideas to counteract the abuses of government and private agencies. How can

you acquire firearms without ending up on a government list? What should you do instead of writing another useless letter to your congressman? How can you stay out of snoopy databases? Is there any way to tell if a supposed friend is really a government snitch? You'll find out all that and more in this informative manifesto.

QUICK AND DIRTY GUIDE TO LEARNING LANGUAGES FAST

by A.G. Hawke. There are many reasons why you might need to learn a foreign language quickly. The author, a U.S. Army Green Beret, often travels to foreign countries on short notice and must be able to communicate

with officials, many of who do not speak English. He tried all types of language schools, classes, books and tapes, but none delivered what he needed when he needed it. So he developed his own method. This book is designed for people who have no interest in learning complicated rules of grammar. So confident is the author of his method that he promises that anyone can become functional in any language in as little as seven days and proficient in 30. The book includes a day-by-day schedule, a handy workbook format, learning tips to help you master key elements and reproducible forms you can fill out and carry with you anywhere.

PRIVACY HANDBOOK

Proven Countermeasures for Combating Threats to Privacy, Security, and Personal Freedom by Michael Chesbro

"Those who would give up essential liberty to purchase safety," observed Benjamin Franklin in 1759, "deserve neither liberty nor safety." Unfortunately, in today's climate of fear, the government, the media and plenty of other American citizens see things differently. If you are not willing to accept "some restrictions on civil liberties to guarantee security," (as NBC news anchor Tom Brokaw, former Secretary of State James Baker and others have phrased it), this book is essential reading. Michael Chesbro shares hundreds of simple but effective measures you can take - short of armed revolution - to preserve your privacy and personal sovereignty in the face of Big Brother run amok. Chesbro identifies the many specific threats to your financial privacy, computer and online security, private communications, home security and more, and provides practical, easy-to-implement techniques to combat every one of them in your daily life. By reading this important book, you can protect yourself from rogue government agents and meddling bureaucracies as well as nosy neighbors, prying family members, identity thieves, stalkers, solicitors and other enemies of privacy and personal liberty.

PATENT SECRETS

How You Can Protect Your Invention for as Little as \$25 by Steven Hampton and Craig Herrington. Written by two successful inventors, this book explains how to legally protect your invention. In addition to providing a detailed road map of the patent process, the authors explain why a patent is no guarantee of wealth for the inventor and may not offer much legal protection from a practical standpoint. Finally, they give you the lowdown on how to protect your invention yourself for next to nothing – and invest your time, money and effort in developing your idea and getting it on the market before someone else beats you to it. You'll also learn how to determine whether your idea will fly, work out the kinks before you get the ball rolling, apply for grant money to help finance the development of your invention and three critical rules of thumb you must adhere to before you even consider pursuing a patent.

101 Things To Do 'Til The Revolution

"America is at that awkward stage. It's too late to work within the system, but too early to shoot the bastards." -- opening lines of 101 Things To Do 'Til The Revolution by Claire Wolfe

This is the original-the underground classic from a then-unheralded writer that sold out within a month of its first printing. Now in its updated fourth printing, 101 Things To Do Til The Revolution is still helping people liberate themselves, prepare for challenging times and monkeywrench an increasingly tyrannical system. It's irreverent, practical, humorous, dead serious, sassy and above all filled with useful resources for people who want to be free.

I AM NOT A NUMBER

Freeing America from the ID State

Revised and Expanded Second Edition

by Claire Wolfe No one says it better than Claire Wolfe: "A passive, malleable, well-catalogued,

and constantly observed population is what every tyrant in history has desired and what no government of the free would ever wish for," but that is exactly the kind of government we appear soon to get. We live in a world where we are required to carry our government assigned number to among other things, get health care, enroll our kids in school, check out a library book, open a bank account, drive a car, get a telephone installed, or even rent a video. We endure scans, warrantless searches, and inspections. The "Patriot Act" in the name of "Homeland Security" encourages our post office, our neighbors, and even home delivery and other service workers to spy and report on us if we seem "suspicious." "The laws to enslave us were passed so quietly that many of us are just now waking up to what's been done. We are about to be numbered like prisoners and tracked like cattle in a herd. Now we face three choices: to bow and be slaves, to rebel... or simply to live free, in spite of their rule." If the last choice is one that appeals to you, this is the book for you.

Claire Wolfe believes "we can create an entire Free America right under the eyes of -- right inside the gaping maw of -- the growing ID state." We are drawing a line in the sand and saying, "No, I am not a number. I am a free human being." If you are fed up, too, get I Am Not A Number and take those first steps toward living free.
